

Xpand IT develops Vodafone Runner App 3.0

Xpand IT developed the Vodafone Runner App version 3.0 – Lisbon Half Marathon App. This free application, available for both iOS and Android, is offering 1000 registrations for Lisbon Half Marathon.

Xpand IT, leader in mobile application development in Portugal, today announced the launch of the Vodafone Runner App 3.0. This application is now available on the App Store and Google Play and is currently offering 1000 registrations Vodafone Runner App users. With this free application, any user can prepare their participation in all events that are part of the Lisbon Half Marathon. This version of the application was created by Vodafone with Xpand IT development collaboration.

This app, designed for both iOS and Android devices, takes advantage of new features that promise to improve the user experience. With this App you can make your registration for free, prepare for the competition with a workout plan and see the competition route. Among the new available features are: content update for the March 2013 race; addition of points of interest to the race route map and support for English language. By subscribing for free the Mini and Half Marathon, you get the chance to win a trip to London to attend to the London Marathon.

With several years of experience in Enterprise Mobility area, Xpand IT is a leading developer of mobile applications developer in Portugal. Currently, with more than 90 applications in the App Store and Google Play, we already developed many success cases for internationally customer references.

XPAND IT

A Xpand IT é uma empresa portuguesa, criada em 1993 com o objetivo de ser uma empresa sólida e uma marca inovadora. Cresceu, evoluiu, expandiu e solidificou a sua oferta que hoje em dia abrange áreas tão diversas como Business Intelligence, Business Process & Integration e Enterprise Mobility & RFID, entre outras. De empresa local passou a empresa global, com projetos em todos os sectores de atividade e em países como Portugal, Bélgica, Índia, Estados Unidos, Emirados Árabes Unidos, entre outros. Sempre com uma abordagem transparente e de cooperação com os clientes é hoje reconhecida acima de tudo como tendo um profundo conhecimento tecnológico e "Paixão pela Excelência".
