

Xpand IT, Pentaho e FusionCharts em webinar sobre BI Dashboarding

Este webinar será totalmente focado em técnicas de Dashboarding para plataformas de Business Intelligence. O evento vai reunir oradores de excelência que irão dar a conhecer a sua visão sobre as principais tendências nesta área.

“Advanced Dashboard Techniques for Business Intelligence” é o título do webinar lançado pela Xpand IT em parceria com a Pentaho Corporation e a FusionCharts. O evento será focado em técnicas de *dashboarding* para BI, onde poderá conhecer: a visão dos especialistas, o tipo de soluções disponíveis no mercado, casos de sucesso, demonstrações técnicas e apresentação da do FusionCharts Plugin – solução desenvolvida pela Xpand IT para a plataforma Pentaho Business Analytics. O evento gratuito terá a duração de 1 hora, com início às 16h00 do próximo dia 14 de Fevereiro de 2013. As inscrições já estão disponíveis através do site da Xpand IT.

Os participantes registados neste webinar irão conhecer soluções para a criação de relatórios empresariais mais atrativos; verificar a complementaridade das tecnologias Pentaho e FusionCharts e ainda aprender a criar gráficos interativos na plataforma Pentaho Business Analytics. O painel do evento vai contar com oradores como: Paulo Lopes e Ricardo Pires da Xpand IT, Sébastian Cagnet da Pentaho e Ryan Das da FusionCharts.

A Xpand IT – Gold Partner da Pentaho, recentemente anunciou a extensão da parceria com a FusionCharts, passando também a ser Revendedor Global desta tecnologia. Entre outras questões estratégicas, a distinção deveu-se ao facto da Xpand IT ter conseguido abrir novos mercados quando decidiu integrar a biblioteca de gráficos interativos mais utilizada em todo o mundo, com a plataforma Pentaho Business Analytics. Esta parceria visa integrar o melhor das duas tecnologias, procurando oferecer uma proposta de valor acrescentado aos seus clientes através da junção das duas tecnologias.

Xpand IT – Official FusionCharts reseller in Portugal with expertise in Business Intelligence, Business Processes & Integration and Enterprise Mobility, today announced a worldwide reseller agreement. This distinction was mainly motivated by the creation of the FusionCharts plugin, which allows the integration of an interactive graphics library with the BI Suite - Pentaho Business Analytics, thus providing the possibility to reach new marketplaces. The dashboard industry has seen many new developments within the past year that will continue to expand in 2013.

Some of the dashboarding trends include the expansion of operational dashboards for monitoring KPI's and embedded analytics, the role of social media applications within BI and

XPAND IT

With several customers across the world, we provide the top IT knowledge for our customers, so they can focus on their core business and still have the best IT resources for their company needs, seamless integrated into their business processes. dashboards, and the integration of multiple data types. Now, Pentaho users can combine the functional character with a unique visual experience. FusionCharts Plugin is available for download on Xpand IT website and doesn't require technical knowledge to install, which is one of its great advantages. The graphics library is optimized for mobile devices, and supports touch interaction, real-time widgets and scroll charts.

"With this partnership we aim to create value for our clients through the integration of two leading technologies in their area. We created FusionCharts Pentaho Plugin to combine the functional aspect of Pentaho Business Analytics platform with an aesthetic dimension provided by an interactive graphics library. This way, our customers will have access to the best of both worlds, without additional cost", said Paulo Lopes - CCO / Partner at Xpand IT.

"Xpand IT is a company with which we have worked for some years and has proven to be an innovative, agile and strategic business. Now, many organizations are increasingly globalized and our channels need to offer innovative solutions worldwide", said, Pallav Nadhani, co-founder and CEO of FusionCharts.

FusionCharts has over 20,000 corporate customers and 450,000 users and is used by more than 80% of the Fortune 500 organizations. Among these companies are the well-known Apple, Facebook, Google and NASA.
