

POWER ENGAGEMENT

GOVERNANCE EDITION

IS YOUR TEAM INDEPENDENT ENOUGH TO IMPLEMENT NEW PROCESSES?

As the number of companies using low-code development platforms increases, there's also an increasing need to ground these platforms in governance capabilities. **When adopting Microsoft Power Platform, it's crucial to ensure that themes such as security and compliance are addressed right from the beginning.** Defining a governance strategy is the first step to become independent while managing your company resources.

Leveraging our know-how and experience with this platform, **Xpand IT has pre-packaged this Power Engagement targeting specific governance needs, helping you take advantage of all Power Platform components** with the certainty that there's a secure and robust governance model behind it.

BENEFITS

- Understand the governance foundations of the Microsoft Power Platform;
- **Monitor all your Power Platform resources** from a central point;
- Learn how to start taking advantage of governance capabilities within Power Platform;
- Define internal guidelines to promote development best practices;
