CLOUD-MODERNIZE YOUR APPS

IS YOUR COMPANY PREPARED TO RESPOND TO CHANGING MARKET CONDITIONS?

Cloud native is the new paradigm of software development. Traditional business models have been disrupted by the rapid rise of digitally native businesses and to meet today's fast-changing landscape and meet growing customer needs, companies need to be prepared with technology built for speed, reliability and security at scale to compete effectively. **As each challenge is unique, the right set of Azure services need to be considered before you start building your solution**.

Leveraging our know-how and extensive experience acquired from different projects with Azure cloud technology, Xpand IT has pre-packaged two **Cloud Journey Engagements** targeting specific needs, helping you leverage Azure cloud technology to transform your business model.

BENEFITS

- Understand how to leverage the power of the Cloud to modernize your Apps;

- Have a grasp on common scenarios using Azure technology;

- Get experts' support on solution design and guidance during implementation;

- **Leverage Azure offerings to transform your business models** and tackle business challenges;

- Lay down the **foundations for building a cloud-native business**;

- Learn how to take advantage of Azure to modernise critical business applications.

TECHNOLOGIES

App Services

Azure Kubernetes Service

Azure Spring Cloud

Azure Cosmos DB

Azure DevOps

THE FOLLOWING PROJECTS WERE IMPLEMENTED DURING A CLOUD ENGAGEMENT:

- Structure of a Mobile App integrated with a Cloud backend, using specific Azure services.

- Implementing the base architecture for a Microservices platform with examples of different services available as a reference / template.

- Defining a plan for reengineering a solution that was migrated with a Lift & Shift approach and create a pilot using PaaS services.

- These are some examples of initiatives that can be done in the scope of a Cloud Engagement. Explain to us your challenge and we can define, together, what should be done on your reality.
